

# SCIENCE CAMP AT SHELTON<sup>N.</sup>

I went to Shelton Science camp at Singapore. It was very happy. I study at Shelton only 9 days and I have buddy, My buddy was very quite girl and I thought she was very smart if I have some problem I will ask her.

At shelton have 3 thai girls and 1 thai boy they was very cute they help us everything like they take us to go shopping and take us to eat delicious food. Although we stay at shelton only 9 days but we love them very much now I buy something to give them for everything they help us. At shelton teacher was very friendly if we don't understand they will teach us to understand.

Today I will give something for my buddy. I bought her gift yesterday I bought it at vivo. I thought I love shelton and I want to come back here and hostel very clean and beautiful I like very much.
